

Additional Guidance

- To maintain its good condition, we recommend dusting your Table Lamp with a soft dry cloth. Avoid the use of any abrasive materials; they may affect its finish and therefore void your warranty.
- Waste electrical products should not be disposed of within household rubbish. Please recycle where facilities exist and check with your Local Authority or retailer for recycling advice.
- This lamp is IP20 rated, Class II.
- Ensure product is turned off and allow to cool down. Then loosen the lamp cover screws, take off the cover and then unscrew and replace the bulb.

Everleigh Table Lamp Installation Instructions

Please read through these instructions carefully and retain them for future reference. Kindly note that your new Table Lamp is not supplied with a bulb; the one recommended is:
1 x E14 LED Max 5.5W Max (not included)

Safety Information:

1. If your new Table Lamp's external flexible cable appears damaged on arrival, it might be unsafe. Contact Garden Trading for a replacement.
2. Place your Table Lamp on a flat, stable horizontal surface, positioning its cable carefully to avoid creating a trip hazard.
3. Your Table Lamp should be connected to a power supply with a protected 5-amp fuse or equivalent circuit breaker.
4. Always be sure to use the correct type and wattage of bulb as indicated on the fitting (and stated above) and do not exceed the maximum wattage; doing so may cause damage to your Table Lamp and therefore void its warranty.
5. Ensure your Lamp is switched off and unplugged from the mains power supply before changing its bulb. Always allow the expired bulb to cool before handling and dispose of it carefully.
6. Do not cover your Table Lamp when in use.
7. This product is not a toy and should be kept away from children.
8. Never leave your Table Lamp without a bulb in place; this will leave live holder contacts exposed.
