Selborne Lounger - All-weather Rattan Product Information

Please read through these instructions and ensure they are kept for future reference.

No assembly required, but these modules can be set out in a number of ways to make either double loungers or a sofa and bench. Please see our website www.gardentrading.co.uk for more details.

This design is made from weatherproof PE rattan (a polyethylene based rattan). It is extremely hardwearing and durable, making it a very practical weatherproof material for outdoor garden products.

The woven seating is UV proof and will not fade in the sun or be damaged by rain. It is woven over a rust proof aluminium frame which is both light and strong and comes with distinctive aluminium feet as a smart design detail.

We recommend storing all PE rattan furniture away from the English elements over the Winter months to help prolong the life of these products. Simply give them a wipe down or gentle hose clean at the start of the Summer.

The cushion fabric is showerproof, but they should not be left outdoors for prolonged periods. We recommend sponge cleaning any marks that appear on the fabric. The covers are removable. Handwash only in cool water.
